With the start of 2004 **Real Ugly Soap** has expanded its line 4 fold. Now there are shampoos, conditioners, lotions, and a wonderful salt mineral scrub in our line up.

As it came time to come up with these summer's scents, I retreated outside to try and come up with something. And there in my own backyard was the answer. What a bountiful garden we were having. So this collection is named 'Seeds, Weeds and Other things.'

Real Ugly Soap is made by hand in small quantities to ensure the highest quality and uniqueness. Made with only food grade Almond, Coconut, Palm, Soy and Olive Oils as well as quality essential oils, fruits and grains. **Real Ugly Soap** is Triple Hand-Milled to provide a super lathering long lasting bar.
